

1Section XII – Alphabetic List of Jedi Masters

2

3If I had more time to devote to this guidebook I would have certainly included Captain
4Moroni(1), Antipus, Helaman, Jacob(2), Lachoneus, King Lamoni, the rest of the sons of
5Mosiah, and several others. However, as you get to know them you will be able to apply
6their lives to your own the same as you can with the ones highlighted in Section II. I am
7certain you will be able to use the mentorship of their lives to fortify your own without
8additional coaching.

9

10Below is a more complete listing of Jedi Masters with references (without page numbers).
11The numbers after some of the names helps distinguish which one they are referring to, as
12several names are in the Holocron more than once and refer to different people in
13different time periods. For instance, Alma(1) is the father of Alma(2), and the names
14Moroni(1) and Moroni(2) are present with over 400 hundred years between them. The
15names with the asterisk (*) are featured in Section II-The Jedi Masters. The links will
16take you to the places on the <http://www.lds.org> Web site.
